

THORSTENSON

RANCH

EST. 1886

Dear Friends and Fellow Cattleman,

Welcome to the 49th Annual Thorstenson Ranch Production Sale. The year 2025 marks a pivotal chapter for the Thorstensons. The opportunity was awakened for us to disperse the Hereford herd to Topp Herefords. It was not an easy decision to make after decades of striving to produce the type and kind of Real World cattle. In May the Herefords went to Topp Herefords where they will continue to excel in their program.

The Angus bull offering reflects the same type and kind we've always offered. Developed with you the Commercial Cattleman in mind. It is a great honor and privilege to be the fifth generation on the Ranch to continue to strive and grow of an Angus seedstock operator. The Bulls were raised without creep feed and weaned October 10th. The Bulls are developed on a high roughage ration, fed once a day to strive for a 3 pound daily rate of gain to keep them sound and functional.

We have made investments to broaden the horizon in developing the Angus herd better. Which includes buying more registered females from proven seedstock operations. This spring, Embryo transfer will be utilized to create more opportunities in this competitive business.

It is a very exciting time to be in the Cattle business! There is no better time to have these mama cows around us. We truly invite you to the Ranch to view the offering anytime. The Bulls will have videos prior to Sale day and will be posted on DV auction and the new website www.thorstensonranch.com. The Sale will be held at the Ranch in our Sale facility. We look forward to seeing you on April 10th at the Ranch. It is my sincere thanks and heartfelt gratitude of old and new customers to continue this legacy of Thorstenson Ranch.

Sincerely,
Darin Thorstenson & The Thorstenson Family

Lunch 11:30 AM • Sale 1:00 PM CDT

Selby, South Dakota — At the Ranch

SELLING:

58 Powerful Yearling Angus Bulls
20 Fancy Replacement Quality Heifers

ABOUT THE OFFERING:

The 2026 offering represents a complete program from birth to sale day. Bulls are selected for structure, soundness, fertility, and disposition, developed in a productive environment to ensure longevity and performance.

Bulls are not creep fed and are grown slowly for long-term usefulness. All bulls will be semen tested and ready for turnout following the sale.
